TREACHER'S GLENLIVET WHISKY.

IMPORTANT CAUTION!

WHEREAS for a period extending over many years there has been uninterruptedly sold in the Indian Market a certain blend of Scotch Whisky known to the trade and the public as TREACHER'S GLENLIVET WHISKY, each bottle of which bears near the front shoulder a characteristic heart-shaped label with a caution label on the reverse and a Phœnix trade-mark on both labels, as well as on the cork and the mettalic capsule covering the cork, and which Whisky from its high state of purity, rich soft mellowness, and intrinsic worth has met with such general appreciation, and so fully established itself in public favour as to be now familarly known as "Glenlivet," "Treacher's Glenlivet," "Glenlivet Whisky," "Treacher's Whisky," "Treacher's Glenlivet Whisky," and "Heart-Labelled Whisky," the Public are hereby warned and cautioned against accepting as TREACHER'S GLENLIVET WHISKY any brand failing to correspond with the aforenoted particulars.

"THE IMPERMEABLE."

PATENTED AND REGISTERED.

WATERPROOF, AIR-TIGHT, DUSTPROOF.

A USEFUL novelty are the IMPEREMABLE metal KEYLESS Watches just imported by us. They will no doubt prove a great boon in a country like India where nothing can be kept safe from dust; and especially useful to Ship officers, Pilots, Divers and to all persons whose daily occupations expose them to dust, damp, &c. They are guaranteed

WATERPROOF,

and are therefore also

DUSTPROOF.

To illustrate the correctness of our assertion a few of these Watches are kept going under water at our establishment, where they may be inspected at any time. No Watch will be sold unless it has been tested under water for at least 2 days.

The works of these Watches are of excellent quality, Patent Lever Escapement, and can be thoroughly recommended as correct time-keepers. Guarantee 2 years. Price Rs. 35. No discount.

COMMERCIAL INTELLIGENCE

WEDNESDAY EVENING, AUGUST 1.

ACCORDING to the financial telegrams received this morning, there is no change in the values of any of the London Stock Exchange securities. The position of money is also unaltered.

In the General Produce markets linseed is flat: Wheat a shade lower.

The Manchester Piece-goods market is quiet.

The Liverpool Cotton market yesterday closed dull, both for Americans and Surats: arrivals flat. Sales 8,000 bales, of which 700 bales were Surats. Prices in Liverpool and New York remain unchanged. The figures to date are given below:—

	1883.	1882.	1881.
Total receipts up to Monday....	5,918,000	4,629,200	5,716,300
Tuesday's receipts	2,000	700	2,800
Total since 1st Sept.	5,920,000	4,629,900	5,719,100

EXCHANGE is steady at the closing rates of yesterday, but this being Council bills day, we have not heard of many transactions. The immediate future will depend very much on the rate obtained for the Government telegraphic transfers, and we look upon 1s. 7 7-16d. as a probable figure.

There are sellers of demand paper for October-November delivery at 1s. 7 15-32d. No change whatever in Calcutta; telegraphic transfer 1s. 7 3-8d.: six months' credits 1s. 7 29-32d.

Bank Bills on Demand	1s. 7 7-16d.
Do. Telegraphic transfer	1s. 7¾d.
Do. 3 months' sight	1s. 7 ⅝d.
Credits, 3 months sight.....	1s. 7 29-32d.
Francs, 3 months' sight.....	25f. 7½c.

GOVERNMENT PAPER is weak and rates have declined a little. We quote 4 per cents. Rs. 99; 4½ per cents. Rs. 103¾.

SHARES.—A few Port Cannings were sold at the reduced rate of Rs. 340. Press stock steady. Some Bombay Cottons were placed at Rs. 825; Mofussils at Rs. 455 and Sind. Press at Rs. 545. Mill shares are the turn lower and rates have declined about Rs. 5 per share. Business has been done in Alliances at Rs. 960; Dhurrumseys at Rs. 670; Empress at Rs. 875; Jewraz Baltoes at Rs. 1,225; Khandesh at Rs. 975; Khataos at Rs. 1,120; Manockjee Petits at Rs. 1,445; Mazagons at Rs. 262½; Morarjees at Rs. 1,570; New Great Easterns at Rs. 1,090; Orientals at Rs. 770; Prince of Wales at Rs. 330; and Sholapores at Rs. 1,600 ex dividend.

COTTON.—There is no enquiry on European account, but some transactions have taken place, between native merchants, in the new crop for forward delivery. Machine-ginned Broach and Good Julgaum for March delivery having been done at Rs. 196 and Rs. 165 per candy respectively. We quote:—

		per candy.
Machine-ginned Broach.	.....	Rs. 175
Comrawuttee,	Fine	..... none.
Do.	F.G.	..... „ 161
Do.	Good	..... „ 155-156

Do	F.G.F.	..... „ 147-148
Dharwar Saw-ginned, Good		..... „ 160-161
Compta		..... „ 140

LINSEED continues quiet at Rs. 5-10 per cwt.

RAPESEED.—There is a moderate inquiry both for Guzerat and Cawnpore at Rs. 7-9 to Rs. 7-10, and Rs. 7-3 to Rs. 7-4 per cwt. respectively.

WHEAT remains stagnant, and prices close weak in consequence. We quote: White Pessie No. 1, Rs. 33 per candy; Yellow, Rs. 27½ to Rs. 28; Luskari, Rs. 26 to Rs. 27; Catha Rs. 24½ to Rs. 24½.

FREIGHTS are improving. The steamer Thessaly has booked 500 tons of Wheat at 21s. 3d. and is asking 22s. 6d. to 23s. 9d. for Measurement. Antwerp ready 27s. 6d.; forward 30s. For Venice 27s. 6d. is named; Trieste 35s. both payable at an exchange of 2s. per rupee.

PIECE-GOODS.—There is no alteration of importance in our market to-day. The G. I. P. Railway is receiving goods as well as the Baroda line, and now that communication with the districts is resorted the stagnation which existed about a week ago is likely to be a thing of the past.

SPECTACLES *V.* BLINDNESS.

SPECTACLES can only be perfectly adjusted by those having a thorough knowledge of the anatomy of the eye, combined with optical experience. We have the highest medical authorities, confirmed by daily experience, that imperfect glasses, together with the haphazard plan of selection employed by the mere vendor, is the cause of most cases of blindness and defective vision. The Bombay Gazette

THURSDAY, AUGUST 2, 1883.

WHEN the abolition of the import duties was effected last year, we hazarded the opinion that the ultimate influence of free-trade would benefit Bombay at the expense of Manchester. This was certainly not the object with which the abolition was agitated in England, and it may have seemed somewhat singular to anticipate a result directly opposed to what was expected by the parties engaged in the agitation. Nevertheless, we believed there was sound reason for the idea, and the condition of the manufacturing industry, at this moment, tends to confirm the forecast we made fifteen months ago. The sanguine anticipation in which we partook arose from a thorough confidence in the resources and capacity of Bombay. The belief that the Bombay cotton-manufacturing industry was dependent on protection for its existence was entirely erroneous, and must be attributed to the anxieties which naturally surround a youthful enterprise. It was the opinion of men well qualified to judge that in this matter Bombay required an impetus, and to these courageous minds no stimulant was likely to be more effective than free competition. In other words, the local manufacturing industry was being weakened by the props that were supposed to support it, and would never acquire the robust development of which it was capable until it was left to its own resources. We publish in another column a correspondence relating to a project for undertaking the function to which we alluded last year, as being appropriate to Bombay. This was to supply the markets of the East with manufactured goods. We indicated East Africa as being a proper field for Bombay enterprise, and this is pointed out in the correspondence to which we refer. The project for seeking new fields for our industry has, in this instance, been set on foot by Mr. Damodher Thackersey Mooljee. This gentleman has addressed to the Bombay Millowners' Association a description of his scheme, and the objects with which he promotes it. There is in Bombay a large and accumulating stock of piece-goods, and unless steps are taken to diminish this accumulation, Mr. Damodher fears that a large number of looms will have to stop working. The annual production of piece-goods in Bombay amounts to about a lakh of bales. For several years it has been found impossible to dispose of this quantity of goods, and at the end of each year there has remained a balance of about 30,000 bales. It is evident that something must be done to get rid of these stocks, and to bring the demand for Bombay piece-goods up to the figure of production. There are, of course, only two courses—to diminish the out-put, or to find new markets. Under present circumstances, the proper expedient to adopt is the latter, and it is for this purpose that Mr. Damodher has addressed the Association. He suggests, "for the serious consideration of the Committee, whether it would not be worth their while to send out a representative to the commercial ports of Burmah, Siam, China, Japan, Arabia, Persia, Turkey, Zanzibar, Mozambique, and other places, whence he could, on his arrival at each place, report the actual imports, and send samples of English coarse yarn and piece-goods (especially piece-goods) which are in favour there, and also furnish all other information connected with the trade at these places." Mr. Damodher estimates that the quantity of English coarse goods imported in the places mentioned amounts to twice or thrice the quantity produced in Bombay. There is room, therefore, he argues, for Bombay to obtain a footing sufficient to relieve the congested stocks, to afford employment for her looms, and to enable her, probably, to develop her manufacturing industry beyond its present proportions. Mr. Damodher cites a powerful illustration in support of his contention, namely, the case of yarn. At one time as much difficulty was experienced in disposing of yarn as is now felt with regard to coarse piece-goods. Now, however, no stock of yarn remains on hand. By dint of a little energy the markets of China and Japan were opened up to Bombay yarn, and from that time to this no trouble has been met with in disposing of it. It is only reasonable to conclude that an expedient which answered satisfactorily in the case of yarn would apply equally to coarse piece-goods. Mr. Damodher has selected Shanghai as a subject for comparison. He furnishes a statement of the amount of coarse goods imported from England, which Bombay is in a position to supply. It will be seen on reference that a comparatively small share of Eastern trade would set this department of manufactures in Bombay on a satisfactory footing.

The Committee of the Mill-owners have concurred cordially in Mr. Damodher's proposal, and have called a special meeting of the Association to consider certain practical proposals for carrying it into effect. The meeting will not be restricted to members of the Association, nor to mill-owners working looms. The project, though primarily designed to foster the trade in piece-goods, will react favourably on the yarn trade, by stimulating the demand for that article, and it deserves the concurrent support of spinners. The Committee propose to give a very comprehensive trial to Mr. Damodher's idea; and the main field of their experiments will be the East Coast of Africa, a great amount of which is unoccupied, and, in fact, awaits Indian enterprise to work it. They propose to send a representative to Arabia, Zanzibar, the Cape of Good Hope, Natal, Persia, Turkey in Asia, Egypt, the Levant, and any other places in that direction that may seem advisable. On account of the expense, the field east of India will be left for some future effort. The estimated expense of sending a representative and assistant throughout these parts is Rs. 12,000 per annum, and it is proposed to defray this by means of a contribution from each mill-owner of one rupee per 100 spindles, and four annas per loom. The expense, therefore, is no great tax, and can scarcely be grudged. The project, in fact, is a very modest one, if we consider the capacity of the manufacturing trade. The industry has been growing steadily for years. The mills generally are making handsome profits, and we need no more interesting proof than that the Anglo-Indian Company has already made up the substantial defalcations discovered a month or two ago, and is again working for profit. We believe the present is the first really practical effort to push their coarse piece-goods which has been made by Bombay manufacturers. Small shipments have, indeed, been made to some of the markets indicated by Mr. Damodher, and the results obtained did not, we believe, tend to encourage further exports. But these attempts were made on no intelligent principle. Little or no account was taken of the requirements of the markets, and the goods were not prepared with any view to meet the tastes or needs of the customers. Failure, under such circumstances, was, of course, inevitable. No inference, therefore, can be drawn from these initial experiments which ought to discourage the promoters of the present scheme. On the other hand, the ground for encouragement is overwhelming. The geographical position of Bombay is exceptionally favourable for supplying the countries bordering on the Indian Ocean. Labour is unusually cheap, and cotton is to be had literally on the spot. If Bombay can supply China and Japan with the coarser yarns, there is no reason whatever why she should not also furnish these markets with the coarser kinds of cloths. What really is wanted is accurate knowledge as to the varieties of goods suitable for these markets, and an intelligent application of the information when it is obtained. The method suggested by Mr. Damodher, and approved by the Committee of the Association, ought to serve the necessary object, and a favourable result may be confidently anticipated from the experiment.

MODERN prolixity has very nearly proved too much for the House of Commons, but Mr. Gladstone has devised sundry expedients for compressing proceedings and expediting work. Whether the expedients will avail is another matter; but at all events they have been resorted to very freely. Can nothing be done to hasten—slowly—proceedings in courts of law? They are becoming more and more lengthened as civilization advances. In England the months devoted to the Claimant's case became a public scandal, and more recently the Belt case was protracted beyond all reason, to the great profit of the lawyers, and the possible ruin, not of the litigants, but of their unwary backers. It is not so very long since that an action about a sum of Rs. 4,000 in Bombay was spread over so many weeks that the costs amounted to Rs. 20,000. And on Monday last the Court of Appeal, after spending twenty days in rehearing a case which had occupied the Court below forty-two days, reversed the judgment of the latter, and saddled the losing side with all the costs. We will not hazard an opinion as to whether the judgment of Mr. Justice Bayley or the reversal of that judgment by Mr. Justice Pinhey and Mr. Justice Scott was most in accordance with the verities of the case. On that point no one can venture to form a confident opinion. There were seventy-two witnesses, of whom twenty-six were for the plaintiff and forty-six for the defendants, and the swearing was voluminous. There were one hundred and seventy-six exhibits into the bargain. The judge who had to listen patiently to all these witnesses, and wade through all the exhibits, was very much to be pitied. The Court above, which had to listen to the reading out of all the depositions and exhibits, was also to be pitied, and may be excused for remarking with some bitterness on the absence of [illegible] judgment setting forth the [illegible] of each Court below took as to the [illegible] of each individual of the seventy-two. Possibly a Mr. Justice Bayley undertaken to cobble, the judgment including such matters of de appeal work would still be in progress, and the point to yet to be made. But this is not the [illegible] which we would direct attention. Possibility should like to see discussed is the power of giving to the presiding judge the [illegible] who can-limiting the eternal flow of witnesses, knew or not, score after score, all depose to [illegible] converted essential facts. The judge has been [illegible] into a writing-machine by the rules hand obliges him to take down with his own [illegible] otherwise, every scrap of evidence, important or [illegible]. The which may be tendered by either [illegible] an inconmechanical drudgery has, amongst others [illegible] slow veniences, that of making the proceedings [illegible] and beyond endurance, and giving to counsel [illegible] and attorneys ample opportunity for imagin[illegible]-issues carrying out expedients for starting [illegible]. It can without number as the case proceeds. If a case very rarely happen that the real drift [illegible] t week's cannot be arrived at after, say, the first [illegible] ascerhearing; and surely when that is once [illegible] out tained it ought not to be difficult to [illegible] informand specify the exact points on which [illegible] sound tion should be sought to enable [illegible] ful to decision to be arrived at. It is [illegible] ary to hear of a case continuing from [illegible] January June, and the judgment then given [illegible] a pre-the subject of a twenty days' review [illegible] rumhead liminary to being quashed. A [illegible] ful to court-martial would be more [illegible] procedure plaintiffs and defendants than such [illegible] as this.

A LENGTHY and interesting report, [illegible] ade by Mr. Joubert to the Executive Committee [illegible] of the Calcutta Exhibition, has just been [illegible] rt republished. The enterprise, Mr. Jou[illegible]g, has marked, "growing from a small beginn[illegible] by its now attained a magnitude unforesee[illegible] been most sanguine supporters." This h[illegible] sym-due to the generous response and acti[illegible] Great pathy accorded by the exhibitors [illegible] China, Britain, Continental Europe, America[illegible]" as Japan, "and last, though not le[illegible]pride, Mr. Joubert observes with [illegible]xcusable Gov-"to the liberality of the [illegible] Colonies ernments. The sympathy of the [illegible]kable in this great enterprise is very re[illegible] have and gratifying. Even the most dist[illegible]uiana come forward to support it, and Briti[illegible]tavia, is elbowing Mauritius, Bourbon, [illegible]dition and the Straits Settlements in the co[illegible]truc-for space. The preparations for the [illegible] being tion and amusement of the visitors are [illegible]ensive carried on rapidly on a most comp[illegible]tions scale. In addition to the ordinary attr[illegible] of an Exhibition, an immense [illegible]shood cattle, horses, sheep, &c., will be [illegible]ther during the Christmas holidays. A lady in charge, who was most amusing, the two sailors returned to their ship, I agreeing to leave on Monday morning, the 9th, for Johanna in the Harrier. The Mission lady so argued me down that I had to point out to her that the word "gentleman" was not mentioned in the Bible, and "lady" only two or three times in connection with our Holy Lady; and yet every City clerk wanted to be now-a-days a gentleman, and even at Bombay the few European girls behind the bars and in the shops were called "young ladies," and they thought, as they worked and earned salaries, that they were as good as some who drove in carriages to the Apollo-bunder and would not work, and there I agreed with them. When will people give up always striving for front seats even in a church? In India, I am sorry to say, salaried officials often assume them, and often without payment.

The natives of Zanzibar are called "Swahilis," and the Missions have Swahili services, the Swahili language in English character being taught at the Mission schools. Next morning (Sunday) we attended service at the new Mission Church of Mbweni. There

THE MAILS.

THE P. and O. Company have received a telegram stating that the s.s. Malwa, which left Bombay on the 24th July, arrived at Aden at 9 a.m. on the 1st August.

COLONEL FRED. BRINE, R. E., left yesterday afternoon for Poona.

THE s. s. Boskenna Bay, 2,300 tons, gross, which has been towed into Aden disabled by the breaking of her screw, left Bombay on July 16, bound for Hull with a cargo of wheat and seeds. She was loaded here by Messrs. Ralli Brothers. The s. s. Goth, which towed her into Aden, left Bombay for the same day.

AT a meeting of the Town Council, yesterday, a letter was read from Mr. Monteath, Acting Under-Secretary to Government notifying that H. E. the Governor-in-Council considered it unnecessary, and as a precedent inexpedient, to furnish to the Town Council a copy of a despatch received from the Secretary of State for India relating to the memorial of the Corporation in regard to the retrenchment of Rs. 15,000 a year from the police contribution. Mr. Geary moved that the letter should be recorded with an expression of the Town Council's regret that the Government considered it unnecessary to supply the Town Council with a copy of the despatch, the principle involved being one of great importance to the Corporation, and one in which the Council took deep interest; and that the Town Council recorded the fact that it was in accordance with precedents that the Municipality should be furnished with copies of despatches from the Secretary of State relating to questions affecting the Municipality. Mr. Nowrozjee seconded the proposition. After some discussion the further consideration of the ma ter was deferred pending inquiries being made as to precedents. A long and tedious discussion took place in regard to the request of Mr. Cassum Hajee Metha that the Council would sanction the opening of a private market at Dadur-road. It was eventually decided to grant a temporary licence until Mr. Ollivant had returned. When the meeting adjourned, only eleven subjects out of a total of 36 on the agenda paper had been disposed of.

THE Acting Chief Justice and Mr. Justice Pinhey, sitting in the Appellate Court yesterday, confirmed the conviction by Mr. Alfred Keyser, District Magistrate of Kolaba, of Purshotum Keshaw Nene on a charge of carrying passengers without a licence from Bombay to Nagotna. He ran a small steamer from Carnac-bunder to Nagotna, situated at the head of a creek on the opposite side of the harbour, and in contravention of section 13 of Act II. of 1868 carried passengers at eight annas per head per trip. He was fined Rs. 90, which were directed to be handed over to Messrs. Shepherd and Co., who have the exclusive right of running a ferry from Bombay to Dharamtar in the Nagotna creek.

IT is reported from Secunderabad that it has been finally settled by the Council of Regency that H. H. the Nizam shall visit Calcutta in December next to be present at the great Exhibition proposed to be held by Mr. Joubert. The young Prince expressed a strong desire to go abroad and "see what was to be seen," and the Council have concurred in complying with his wishes. Intimation to this effect has been given to the Resident.

A MEETING of gentlemen willing to join the proposed Brigade of Naval Artillery Volunteers was to be held at the Port Office, Calcutta, on Monday afternoon, for the purpose of making the final arrangements for the formation of the corps. The uniform of the corps, even to the badge (a handsome device, surmounted by a lion rampant bearing a crown), has practically been decided upon, and is similar to that worn by the Royal Naval Artillery Volunteers at home except that the material to be used is white drill instead of blue serge. Mr. C. A. Mills is acting as Honorary Secretary of the proposed new corps.

THE Mussoorie paper records the death of Mr. Frederick Wilson, a well known *shikari*, after only a short illness.

IT is now stated that the Report of the Education Commission, though practically complete, requires so many finishing touches that work will go on in connection with it until the first week in September, although all the members on special duty will not remain in Simla until that date.

THE Government have replied to the recent representation of a number of ministers representing dissenting bodies on the subject of burial in parts of cemeteries consecrated according to the rites of the Church of England, by a Resolution amending the "Rules for the care and use of Government cemeteries." It will be remembered the memorialists urged that dissenting members of families owning vaults in Church of England burial grounds were precluded from being buried there with the service of the religious sects to which they had been attached. The amendment removes this disability, the rule on this point now reading as follows :—

"Rule VIII (1).—No burial can, as a general rule, take place in that part of a Government cemetery which has been set apart for the use of members of the Church of England, unless the service prescribed by that Church is read by the Chaplain, if there be one, or in his absence, by the layman who officiates at the funeral. But a person may be interred in the other portions of a Government cemetery with or without the use of any services of religion.

2. Where in that part of a Government cemetery which has been set apart for the use of members of the Church of England there is a family vault or grave, or a reserved plot of ground purchased by a member of the family, or a masonry grave prepared in immediate contiguity to such family vault or grave, having charge of the same, either without any religious service or with such Christian and orderly religious service at the grave as such person shall think fit; and any person or persons who shall be thereunto invited, or be authorised by the person having charge of such burial, may conduct such service or take part in any religious act thereat," &c.

BURMAH is to have currency notes like the remainder of the Indian provinces. A notification appears in the *Gazette of India* constituting "the territories administered by the Chief Commissioner of British Burmah a Circle of Issue," with effect from 1st August, appointing the town of Rangoon to be the place of issue of currency notes for the said circle, and ordering the establishment of an Office of Issue in Rangoon. The Comptroller, British Burmah, for the time being, is to be the Commissioner of Paper Currency for Rangoon.

THE Bengal Asiatic Society have just issued a double number of the *Bibliotheca Indica*, which, the Allababad paper remarks, will delight the hearts of Mr. Sinnett and his fellow-students of Esoteric Buddhism. "The number contains such serious matter for reflection as 'the Yoga Aphorisms of Patanjali with the commentary of Bhoja Raja,' but ordinary English readers, if such there be found, will be satisfied with the translation furnished by Dr. Rajendralala Mitra, and the long preface by the same scholarly writer. Dr. Mitra admits that 'it may shock European ideas of the present day to be told of metempsychosis; but,' he adds, 'between worldly life, purgatory, and eternal hell-fire or heaven on the one hand, and metempsychosis on the other, dispassionate and unsophisticated logic will readily yield the palm to the latter.' We may well leave unsophisticated logicians to argue this out: the mass of humanity are content to fall

Upon the world's great altar stairs
Which slope through darkness up to God,

without troubling their minds about metempsychosis or even eternal hell-fire."

TELEGRAPHIC communication has been completed and opened between Saigon and Bangkok, the rate from Singapore being 60 cents per word to either city. The line is under the control of French officials.

CAPTAIN A. J. LOFTUS, F. R. G. S., of the Siamese Royal Survey Department, who accompanied Commander Bellion and the French Government Survey Party in the early part of this year in their expedition to the isthmus of Kraw, to determine the practicability or otherwise of a ship canal through that isthmus, has published a pamphlet, with map of the district, and sections showing the depth required to be excavated in the high ground of the isthmus, proving clearly that the cost of cutting the canal will be so great as to render it for that and other reasons utterly impracticable.

THE French cruiser Chateau Renaud, 7 guns, 1,800 tons, passed Singapore on July 11 on her way to join the Tongking fleet under Rear Admiral Courbet. The Atalante, an ironclad, was expected a day or two later, also to join Admiral Courbet's fleet.

THE Spanish *canard* about the massacre of the Englishmen in North Borneo by natives, which was telegraphed out by Reuter and subsequently contradicted, has induced Governor Treacher to address the *Straits Times* on the improbability of such an occurrence and on the state of the Colony generally. The Governor, who, having been formerly British Consul-General in Borneo and Governor of Labuan, and having been connected with Borneo and Sulu for the past twelve years, speaks with the authority of considerable experience, says that "such a catastrophe is altogether beyond the bounds of possibility." He points out that North Borneo is not inhabited by any one powerful tribe, such as the Dyaks and Kayans of the southern portion of the island. We quote the following interesting passages from Governor Treacher's letter :—

The coast line of North Borneo is inhabited principally by Bajows and Sulus, not in any large numbers. The latter are chiefly immigrants who have, since the occupation of the country by the British Company, voluntarily come across, attracted by the reports of the wise Government and kindly consideration for native peculiarities of the English rulers. The Bajows of the West Coast are not the fierce sea-gipsies and cutthroats we read of in ancient works on Borneo. Long ago they left their floating habitations and settled down to a peaceable life ashore, only taking to the sea when an honest trading voyage is to be taken in hand. The Chiefs are all well known personally to our officers, to whom they pay frequent informal and friendly visits. One of the most influential of them has recently removed his settlement to the near vicinity of Kudat, and is now a salaried officer of the Government. The interior tribes with whom we have as yet come in contact are unwarlike, few in number, unpossessed of firearms, speak many different dialects, and are too interested in their own petty intertribal blood feuds, handed down for ages, to combine for purposes either of war or peace. In several cases they have appealed to the Company's officers, and long-standing feuds have been put an end to for ever by their intervention. Far away as they are in the interior, we have as yet had no reason, as certainly we have no desire, to interfere in any manner with their mode of life and the rule of their old men, with which they seem perfectly contented. In conclusion, I may add that the operations of the renowned Sir James Brooke, the influence for good of the Government of the British Colony of Labuan, and the constant presence on the coast of Her Majesty's vessels now and during the past forty years, have rendered the civilizing task of the British North Borneo Company a comparatively easy one, and the occurrence of a rising amongst the natives an impossible eventuality.

MR. CONSUL PACKENHAM, the *Daily News* says, had been for twenty-one years British Consul at Tamatave. "Only two or three weeks have elapsed since he was gazetted Consul-General at Odessa, and it is therefore impossible that he could have heard of his promotion at the time of his death. It is the intention of the Government to appoint a Consul-General to reside at Tamatave, but the new office has not yet been filled up. As we stated some time ago, it is understood that Mr. Pickersgill, who is well acquainted with Madagascar, will be appointed Her Majesty's Vice-Consul at Antananarivo."

CETEWAYO, in writing to the Bishop of Natal on May 4, concerning the attacks made upon him by Hamu and Zibebu, says :—"Well! here now is Hamu's *impi* and Zibebu's attacking me on both sides and all round. And I keep quiet, while they and my people stab one another. But to-morrow it will be said to be my doing, whereas I have had nothing to do with it. And if I were to attack them in return, it would be said to be all my doing, whereas I for my part had been keeping quiet, while they were given authority to kill me."

ON the subject of the Suez Canal agitation, the writer of the *Pall Mall Gazette's* "City notes" on July 13 said :—It might be wished that the City men who are so eager to denounce the whole agreement made between M. de Lesseps and the English officials would look at the alternatives they suggest. First, they assert that the English Government ought to take more high-handed measures; tell the Canal Company it must put up with 10 per cent.; and threaten it with forcible expulsion if it objected. The damage which would so be done to commerce in the East, and therefore to British interests, would far more than outweigh any advantage to us by obtaining an exclusive hold on the Canal. Even if, as M. de Lesseps complains, the Republic might not support the company in opposition to any measures proposed by Great Britain, there would be a continual smouldering of animosity, destroying all confidence in the preservation of peace; and most commercial men know the essential part played by confidence, or the want of it, in the progress of all business. Secondly, they say we should do nothing rather than take the present steps, as if the making of a new Canal wholly by French means—for that is the probable alternative—could benefit English shipping."

MR. ALDERMAN LAWRENCE, M.P., has given notice that on the occasion of the introduction of the scheme of sixpenny telegrams, he will move that it is not expedient, in order to reduce the minimum price to sixpence, to increase the present tariff for twenty words and upwards, as would be the case under the proposed scheme. He will also move that it is not expedient to charge for the number of words in the addresses either of the receivers or senders. He intends to move the following as an alternative scheme :—"That addresses be considered of the value of 2d., that eight words at ½d. each would be 4d., and that 2d. added to 4d. would be 6d." His proposition is this: Eight words, 6d.; twelve words, 8d.; sixteen words, 10d.; twenty words, 1s.; twenty-four words, 1s. 2d.; twenty-eight words, 1s. 4d.; and thirty words, 1s. 6d.

ON June 5, near the village of Melzei, which is half-way between Constantinople and Ismidt, a band of brigands seized and carried off Adreole Corpi, a rich-Galata banker. They asked £6,000 for his ransom.

THE London correspondent of the *Manchester Guardian* states that "the Benchers of Gray's Inn have disbarred Mr. Foster Reed, a member of that Society, after inquiry into the money-lending case which was referred to them by Mr. Justice Stephen. Since the disbarring of Dr. Kenealy the Benchers have not taken the extreme decision. It is a remarkable fact that Mr. Foster Reed was originally a policeman, and had by his own energies worked himself into the highest profession of the law."

MILITARY NEWS.

LIEUTENANT H. E. IRWIN, Adjutant of the 2nd Battalion Royal Warwickshire Regiment, stationed in Fort William, left Calcutta on the 27th July on sick leave to England. He had only just returned to the battalion from three months' leave in the Madras Presidency.

THE 14th Madras Native Infantry at Dorunda is to be sent back to its own Presidency, the garrison duties at that station being taken by a half-battalion of Bengal Native Infantry from Alipore, in relief of the Madras regiment.

Two transport depôts for training and instruction in the Bengal Presidency, with the necessary native establishments have been sanctioned for Meerut and Mian Meer.

THE 1st and 3rd Punjab Volunteer Rifle Corps have been invited to take part in the manœuvres to be held at Mian Meer, in December.

THE next course of army signalling at Kasauli will be attended by the following officers, *viz.*, Captain E. H. C. Braddon, Border Regiment, A.-D.-C.; Captain A. W. Brooke, 17th B. N. I.; Lieutenants J. F. Wortledge, 7th B. N. I.; P. A. Buckland, 15th Sikhs; and E. J. Medley, 3rd B. C.; Captain A. De V. Alexander, 4th B. C.; Lieutenant E. A. Gossett, 2nd Battalion Derbyshire Regiment; Lieutenant F. W. Duff, 9th Lancers; Captain L. Griffiths, 1st Battalion Royal Welsh Fusiliers; and one officer from each of the battalions of the West Riding (D. W.'s), Cheshire, South Lancashire, and Wiltshire Regiments now serving in Upper India. The officers abovementioned will assemble at Kasauli about the 15th of August, on the termination of the course of instruction in signalling now proceeding.

A GERMAN gentleman writes to an up-country paper :—"With reference to a paragraph in your columns notifying the appointment of an English Militia officer to the Prussian Army it is by no means a rare occurrence to find your countrymen serving as officers in the German army. In almost every regiment there is an English officer, and some of them did good service in 1870-71. Mrs. Benfield, the widow of a British officer, who was killed in the Crimea, made Munich her place of residence in order to give her children a good and cheap education. Her eldest son became a Lieutenant in the Guards. In 1870 he stormed with the 40 men he was commanding a church occupied by two companies of Frenchmen who had placed a 9-centimeter gun before the altar. With his 40 Bavarian guardsmen he succeeded in taking the gun and 500 prisoners. For this feat he received the Iron Cross. I also know two Englishmen who are in the fourth Field Artillery at Augsburg."

TELEGRAPHIC WEATHER REPORT.

SIMLA, July 31.—The pressure has given way everywhere. The fall is slight in the south, but considerable in the north, owing to small barometric disturbances, one lying over Bengal, another near Peshawur, and a third near Jacobabad. The depressions in the north-west, by drawing the wind into south-west in that region, render rain more probable; but over the whole country north of Goa and west of Behar there has as yet been no rain of importance. The Bengal disturbance has brought heavy rain. The air is becoming moister in the Punjab and Bombay. Rain to-day: —Akyab, 7 inches; Burdwan, 4 inches; Saugor Island, 3 inches; Dacca, Calcutta, and Toungoo, 2 inches; Salem, 1 inch; Sibsagar, Patna, Hazaribagh, and Madura, ½ inch. Previously, Hazaribagh had 3½ inches; Nani Tal, Fyzabad, Dinagepore, and Gya, 1 inch; Jaunpore, Nowgong, and Cochin, ½ inch.

EGUTPOORA.—Seventy-five inches of rain had fallen at Egutpoora up to Tuesday evening, the 31st July.

CROP AND WEATHER REPORTS.

THE following is the official summary of the reports of the Agricultural Department on the state of the weather and prospects of the crops throughout India for the week ended on July 24 :—

Although a general break in the rains seems now to have set in, yet during the early part of the week to which the reports relate good rain fell throughout India, except in some districts of the Punjab. In Bombay the fall was heavy along the Western Ghats, but some deficiency is reported in parts of the Southern Mahratta Country. In Baroda and Surat the excessive rainfall of previous weeks has been succeeded by light showers. A break would be beneficial in parts of Central India. In Rajputana the rainfall has been light, but favourable: and the tanks have generally a sufficiency of water, except in Marwar, where they are empty. In Burma the rainfall, though below average, has been generally sufficient. Good rain has fallen all over Bengal; at Burdwan the fall was exceptionally heavy, but in some parts of that district and in Rajshahye, Rungpur, and Purneah, more is needed for transplanting aman. The drought continues to wear off in Gaughati; elsewhere in Assam the fall has been sufficient. Seasonable weather prevails over the Central Provinces, and prospects there are very favourable. In the North-Western Provinces and Oudh ample rain fell in all reporting districts up to the 24th instant, and the crops are reported to be doing well. In the Punjab the fall has been very partial, and more rain is much wanted in several districts. Harvesting continues in the Madras Presidency, and standing crops are generally in good condition, except in parts of Coimbatore and Tanjore, where they are suffering from want of rain. Sowings for the kharif have nearly been completed in the Bombay Presidency, Central India, and the Central Provinces, and are in full progress in the North-Western Provinces and Oudh and the Punjab. The cotton crop is being weeded in the Central Provinces and Berars, and promises well. Transplanting of rice is being pushed on in Bengal and Assam. In the former province harvesting of early rice and jute continues, and indigo manufacture has commenced. Ploughing is nearly finished in Burma, and rice seedling are being transplanted. The crops in the Deccan are seriously threatened by locusts. Cattle-disease is reported from most districts. Cholera appears to be prevalent in Bombay, in the Central Provinces, and parts of Bengal; and a severe epidemic is said to exist in the city of Agar in Central India. Prices are fluctuating.

THE reason why so many are unable to take Cocoa is, that the varieties commonly sold are mixed with starch, under the plea of rendering them soluble; while really making them thick, sooty indigestible. This may be easily detected. For if pure Cocoa thickens in the cup, to prove the addition of starch: Cadbury's Cocoa Essence is genuine; it is therefore three times the strength of these Cocoas, and a refreshing beverage like tea or coffee.

The most wholesome and nutritious of confections is far less consumed than it would were it not for the greatly adulterated articles sold under the name of chocolate. Every cake of Chocolate bearing the name of Cadbury is guaranteed to consist solely of pure Cocoa and white sugar.—Makers to the Queen and Royal Family.

THE BOMBAY GOVERNMENT AND THE CALCUTTA EXHIBITION.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—It was with feelings of shame and regret that I read in your paper of Saturday that the Bombay Government had contributed Rs. 1,000 only to the expenses of the Bombay Committee for the Calcutta Exhibition. Well might the worthy chairman with characteristic national caution tell the committee that "the Government had contributed Rs. 1,000, and that would be a guide to other people as to what they should give." I paraphrase these words thus :—The Government of Bombay are throwing cold water on the Calcutta Exhibition, and as dutiful Bombay citizens, we cannot be expected to do otherwise.

But, sir, as a citizen of Bombay, resident for many years in the Presidency, I feel ashamed of this meanness and parsimony, and I regret exceedingly that this Government shows so plainly what a small estimate they have of the importance of such an Exhibition as that of Calcutta—as an International Exhibition and the first held in India—to the commercial interests of the country.

I understand that the various Australasian colonies have been officially informed of the intended Exhibition, and have willingly and cheerfully responded. The Government of that tight little island, Tasmania, has, I believe, contributed £100 towards sending exhibits, and our Bombay Government has expressed its willingness to contribute less than that sum, viz., Rs. 1,000. Such a contrast is too, too ridiculous!

Why, the Anglo-Indian Mill of Bombay offered a reward the other day of Rs. 5,000 to catch a defaulting accountant, and our Bombay Government actually offers Rs. 1,000 towards the Calcutta Exhibition, when the great object of the Exhibition is to encourage trade by placing the products of different and distant countries in juxtaposition, and thus showing to the public of Bengal and their visitors the manifold advantages of peace, free trade, and unrestricted commercial intercourse between India and India's Metropolis, Calcutta, and the rest of the world.

If the Bombay Government had started the subscription list with Rs. 1,00,000, or even Rs. 1,50,000, the latter sum being the amount—if my memory serves me aright—which a late Bombay Government expended on furniture for Government House at Gunnesh Khind, the public would have followed liberally, and the keenest native patriot would not have begrudged a pice of the money. But had they done more than this, and granted a lakh or a lakh and a half in addition, to be used in giving free passes by rail, and the requisite subsistence money to 500 or 1,000 of the most deserving but poor scholars of the schools of this Presidency, without respect to caste, creed, or colour, that they might visit the exhibition, then they would have risen to the greatness of the occasion, and have done an incalculable amount of good. It would have been a generous and enlightened stroke of policy, and it would have done much to ease the strain which every despotic government especially, and every other government for that matter, imposes from its very nature on the governed. It would have been sowing good seed broadcast, educationally and politically—seed that would have yielded a hundredfold in these youthful hearts, and in the bosoms of their friends and acquaintances, and created by a little liberal forethought that sense of thankful feeling towards, and respect for, the Government which is so invaluable in a community. Such an act would also have vindicated the Government's right to be called a paternal Government; and at the present time it behoves the various Indian Governments to cherish the ma-bap principle. But this subject is too large to be discussed in a letter.

What answer the people of this Presidency will give to the call for subscriptions, and to the pressure to send exhibits, is still to be seen, but it is to be hoped, for the credit of Bombay, that they will show themselves more liberal than the Government, and rise to the height of the occasion, always remembering that a World's Fair at Bombay was very freely talked of before the Share Mania, and will be certain to come off some day, whether I be here to see it or not. And we shall certainly hope that the millions of Bengal will be largely represented at it.

In conclusion I beg to suggest to the Bombay Committee that they should call for tenders for a photograph of the members of the Bombay Government on one sheet, for which space should be reserved in a conspicuous place in the Bombay Court of the Calcutta Exhibition. The combined photographs might appropriately be enclosed in an artistic wreath of mowra leaves, flowers, and fruits, and price Rs. 1,000 might be added at the bottom.

THE following correspondence has been placed at our disposal :—

Bombay, 4th July, 1883.

J. Gordon, Esq., Secretary, Bombay Millowners Association.

DEAR SIR,—I beg to bring to the notice of the Millowners' Association what I consider to be a very serious matter, and to request that the subject may be brought before the Committee at as early a period as possible.

I refer to the large stock of piece-goods in Bombay. For the last few years it has been found that the whole of the production could not be disposed of, and there has, at the end of each year, been a balance of about 30,000 bales in stock.

It is found more difficult every year to clear our accumulating stock, and unless some steps are taken to open up new markets, I fear we shall have to stop working a large number of the looms at present at work.

I would therefore suggest for the serious consideration of the Committee, whether it would not be worth their while to send out a representative to the commercial ports of Burmah, Siam, China, Japan, Arabia, Persia, Turkey, Zanzibar, Mozambique, and other places, wherever he could, on his arrival at each place, report the actual imports, and send samples of English coarse yarn and piece-goods (especially piece-goods) which are in favour there, and also furnish all other information connected with the trade of these places.

The Committee, having carefully considered this important proposal, cordially approve of it, as they think that it will be attended with great benefit to the industry; but, as the expense which it involves will be heavy, they propose, at present, sending a representative to Arabia, Zanzibar, the Cape of Good Hope, Natal, Persia, Turkey in Asia, Egypt, the Levant, or any other place or places, in that direction, that may seem advisable. The cost of sending a travelling Agent, with an assistant, to these countries will, it is estimated, amount to Rs. 12,000 per annum.

The Committee have decided to call a Special General Meeting of the Members of the Association for the purpose of laying the scheme before them; and, if it should be adopted, they recommend that the estimated expense of Rs. 12,000 per annum be raised by a contribution from each owner of 4s. 1 per 100 spindles, and of 4 annas per loom.

The Committee desire to point out that not only will the proposed scheme be very advantageous for the sawing mills, but that spinning mills also will equally benefit by it. If the looms are fully employed, there will be so much less yarn for sale in the market.

Millowners who are not members of the Association will be invited to attend the Special General Meeting, and to co-operate in establishing the scheme, which, the Committee hope, will receive your serious consideration.

BOMBAY TOWN COUNCIL.

A MEETING of the Town Council was held in the Municipal Offices yesterday, when the following members attended :—Sir Frank Souter (in the chair), Colonel Merewether, Captain Morland, Mr. Peterson, Dr. Blanc, Mr. Nowrozjee Furdoonjee, Mr. Sayani, Mr. Raghunath N. Khote, and Mr. Nanabhoy Byramjee.

A letter was submitted from the Acting Municipal Commissioner, reporting that he had accepted Mr. Rahimtula Bhaijibhoy's tender, amounting to Rs. 4,539, for laying water-mains in Gibbs' and Cumballa Hill-roads.

Dr. Blanc complained that several roads were closed for months and months together while water-mains were being laid, and that people had for a length of time to pass through dirt and mud that would not be tolerated in any other city for a week. There seemed to be a screw loose somewhere. He suggested that it should be placed on record that it was desirable that the contractor for laying the mains in Gibbs' and Cumballa Hill-roads should carry on the work as rapidly as possible.

The Commissioner remarked that the state of affairs of which Dr. Blanc had complained was attributable to a faulty system. To remedy it would involve giving the officers and engineers the power of spending a sum of money on their own responsibility. Coolies could not be engaged unless they were paid every evening for their day's labour.

Eventually the Council agreed to the following resolution on the subject :—"That before any roads are broken up for the laying of water-pipes or the construction of drainage, measures be taken for having all the necessary plant, &c., on the spot, so that no other delays shall be caused than actually offers Rs. 1,000 towards the Calcutta Exhibition, when the great object of the Exhibition is to encourage trade by placing the products of different and distant countries in juxtaposition, and thus showing to the public of Bengal and their visitors the manifold advantages of peace, free trade, and unrestricted commercial intercourse between India and India's Metropolis, Calcutta, and the rest of the world.

WRONGFUL RESTRAINT.—Mr. Alexander Meyers charged his cousin, George Meyers at the Calcutta Police Court on Saturday, with having wrongfully restrained him and his family on the 15th July. The parties lived together at No. 165, Boitakhannah Bazar-road. It was a joint property in which the complainant and the defendant's father had interest. Originally there were two entrances to the hall, one the back, and the other in the front verandah of the house. Now, there was only one entrance, the back verandah having fallen down. On Sunday, the 15th July, the defendant locked the first door of the front verandah, and thereby locked the complainant and his family in their room from 8 in the morning till at night. Their meals had to be carried to them through one of the windows. The defendant himself occupied a room next to the complainant's, so that by locking up the door, he virtually locked himself up. Whenever he had occasion to come out, he would have to call a window. The Bench were satisfied that the defendant had wrongfully restrained the complainant and his family, and accordingly fined him Rs. 5.—*Ibid.*

ARRIVAL OF AN AUSTRIAN SHIP AT AKYAB.—The Austrian ship Erminia G., loaded with rice by ... Mohr Brothers and Co., has for several weeks past been lying in harbour waiting for a favorable distance of getting to sea. As the weather had somewhat moderated this week, the pilot had engaged to make the attempt to take the vessel to sea on Sunday morning last. It would seem that on the night of the previous Thursday (July 19), the master of the ship, finding the wind favorable, determined not to let the opportunity slip, and without waiting for a pilot got under weigh at about 2 o'clock, a.m. He managed to get out of the harbour and to clear the Fakeer Buoy, but appears not to have made due allowance for the set of the tide, and consequently he was driven on the Fakeer Rocks. When the ship with some difficulty got off the Rocks, she was found to be making water so fast that it was necessary to run her ashore to prevent her sinking in deep water. She was accordingly beached a little inside the point, opposite to Mr. Blair's bungalow, where she now lies. The cargo is being discharged, but very little of it is likely to be saved, as the ship had some 13 feet of water in the hold when she was run ashore, and a delay of nearly two days occurred before commencing to unload her. The stench arising from the rotting rice is dreadful. The Deputy Commissioner has, we hear, ordered that all the damaged rice shall be thrown into the sea outside the harbour, but there is some difficulty found in enforcing the order. In the first place it is not clear to whom it should be addressed; and in the next place no cargo boats can be got to go outside in the present weather. As for the ship, it is feared she will be a total wreck.—*Arakan News.*

The rainy season has now set in, and every day or night we have a heavy downpour, accompanied by thunder and lightning. The roads about Haiphong are mere bridle paths, and after the rains, are in a most deplorable state. The French here do not seem to appreciate the maxim that the first step in civilizing a country is to make roads. Owing to the heavy rains and strong current running in the rivers the wharf attached to the C. M. S. N. Co.'s godowns, rented by the French Government, has given way, and some time will be occupied in putting it in working order again. It is the only landing place in the port.

A proclamation, both in French and Annamite, of which the following is a free translation, has been posted up above the town during last night :—

"The General commanding in Tonking to officers, non-commissioned officers, soldiers and marines of the expeditionary corps.

An official telegram addressed to the Governor of Cochin-China, dated 27th May, announces that the Chambers have unanimously voted the credits in relation to Tonking, and that France will avenge her brave sons.

A telegram of the following day nominates me to the supreme command in Tonking. Behold me in the midst of you ready to lead you anywhere that the exigencies of the patriotic mission which has been entrusted to the Government of the Republic may require. Your past history is a guarantee of your discipline and courage. The new chiefs who come to lead you are known to you:— you will follow them with devotion and constancy; and allow no reverse to tarnish the reputation of our arms. Pillage is dishonourable to any: continue then to respect the property and the religion of the peaceable inhabitants of the country.

To the inhabitants of Tonking. The treaty of the 8th March, 1874, imposes on France the obligation of furnishing the necessary forces to insure the peace and tranquility of the country. The bands of brigands, vagabonds without nationality, who live only by pillage and the exactions which have long troubled your tranquility, have prevented you from reaping from this beautiful country all the riches which nature has bestowed upon it. The Annamite authorities were pledged to maintain order and to protect the commerce of the Red river. So long as France was able to hope that these authorities would fulfil this obligation she has done all that was possible to demonstrate the peaceable character of her designs. To-day she can no longer abstain; her countrymen are menaced, her soldiers are murdered. Such actions constructed by the foreign brigands who have penetrated into the country. It is against them that the campaign is opened to-day, her only aim is to drive them back to the mountains from whence they came to plunder you. Those who are taken shall be hung, and their bodies will be given to ... vultures. Numbers of troops have ... are en route and will soon be ... them your assistance on ... bou... the ... which you have needed so long. A great people loyally offer you the hand; respond to its appeal, and new and happy fortunes will henceforth open ... you.

Le Gen. de Brigade Com. Supr. in Tonking, (Sgd). BOUET.

C. V. D'SOUZA, who has lately returned from Cape Town, announces to the public that he has OPENED a COACH-FACTORY at Girgaum Back Road, near the Cawasjee Patel Tank. Undertakes to execute orders promptly and carefully a very moderate rates. A trial is solicited.

£500 PAYABLE at age 50 or at death if previous may be secured by a monthly payment of Rs. 16-12-8 if commenced at age 30. If commenced at age 30 the rate is about twenty-four rupees a month, and if commenced at age 40 the rate is about forty-eight rupees a month. It is an advantage to effect such Provisions early in life. By delay the rate of subscription increases;—death may occur before the provision is effected;—Health may fail and render the life ineligible for assurance. Every information on application to SECRETARY, STANDARD LIFE OFFICE, 7, Rampart-row, Bombay.

NOTE.—The above rates are reduced during residence in Europe; and should the claim mature in England, the amount of the policy is payable in sterling money at the rate of 2s. per rupee.

SARSAPARILLA.
Wilkinson's Essence or Fluid Extract of
RED JAMAICA SARSAPARILLA
Is the ONLY PREPARATION RECOGNISED by the FACULTY as a WONDERFUL PURIFIER of the HUMAN BLOOD.
It is not too much to say that those suffering from the effects of TROPICAL CLIMATES, such as TORPID LIVER, DEBILITY, ATTENUATION of BODY, ERUPTIONS, LASSITUDE, &c., will, by taking this extraordinary ESSENCE of RED JAMAICA SARSAPARILLA, soon find relief and ultimately a cure. It is asserted by those who take a little DAILY the system becomes less liable to attacks of illness.
"We cannot speak too highly of it."—*Lancet.*
